📍 Tehran, Iran

Expertise

- HTML
- CSS/SCSS
- Bootstrap
- JavaScript
- React Js
- Redux

Projects

- **DIVAR WEBSITE**
  - I have created a React-based e-commerce site for free classifieds that uses React Query, Axios, etc. to enable secure user registration and direct buyer-seller interaction.
  - Click here to see my project.

- **PORTFOLIO WEBSITE**
  - As a passionate front-end developer, I specialize in crafting engaging, responsive, and dynamic user experiences. This site showcases my skills, projects, and creativity in building sleek, intuitive interfaces.
  - Click here to see my project.

- **STORE PROJECT**
  - A comprehensive e-commerce application built with React, utilizing Context API and the useReducer hook for efficient state management. This project fetches real-time product data from a live API and offers features like product detail viewing, shopping cart functionality, and a checkout process.
  - Click here to see my project.
